

HOW TO PLAY SOLO

Fill in the blanks on this page before viewing the story on the opposite side. Then transfer the words you've chosen into the corresponding spaces in the story — and enjoy the hilarious result!

HOW TO PLAY WITH FRIENDS – PIPH STYLE

Gather a sex-positive friend or two. In this variation, you are meant to see the full story on the opposite side, while your friends should not. The key is to be discerning about where you place their answers. For example, ask for several nouns at once, then place them in the funniest spaces. Ask for different answers if nothing seems to fit. Adjust the story however you'd like, and encourage your friends to be as freakish as possible. Then enjoy the hilarious result!

HOW TO SPOT A TOXIC SEX TOY

Unlike the _____ industry, the sex toy industry is _____
unregulated. Manufacturers can produce toys in any material they wish, so it's
important to be a/an _____ consumer and _____ yourself.

Horror stories abound of toxic sex toys that melt into a goo, smell so
_____ they induce _____, or, worst of all, cause a/an
_____ sensation in the genitals.

There is one pretty obvious sign: if the toy is _____ and stinks
like a brand new _____, it's likely toxic. Instead, look for sex toys
made of the same materials as _____. Be wary of the packaging, as
products may be falsely labeled with phrases such as "non-_____"
"_____-free," and "_____." Buy from
a/an _____ retailer — not _____.

The best thing you can do is trust your body. So if you're ever masturbating
and you experience any _____ or _____,
throw that toy in the trash immediately. It doesn't deserve to be near your
_____!
